Dr. Sittser is an excellent theologian and author.

He writes, “The will of God concerns the present more than the future; it deals with our motives as well as our actions; it focusses on the little decisions we make every day even more than the big decisions we make about the future.” *(page 34)*

I found this book transformative; a book I think you will enjoy and will help as you seek to faithfully live as a disciple of Jesus Christ.

Participate in the book study or simply read it on your own.
